# POWER DEVICES

**FE TECHNOLOGY, INC.**  
Your Manufacturing Source

www.fe-tech.com

- 30 years of experience in sourcing products for OEM customers
- Services range from conceptual design to finished product
- USA engineering for evaluating customer specifications
- Inspection of shipments to ensure specification compatibility
- JIT delivery from warehouses located in Ohio and California
- Quality supplier ready to offer full support to our customers

## Power Line Up . . . Plus

**PRODUCTS:** We offer a wide variety of custom power products and a wide variety of related magnetic products. We have a high quality engineering R&D team available to do custom designs for Transformers and other Magnetic Devices in order to meet the specific needs of your program or project.

**QUALITY:** Our factory is ISO certified to ISO 9001. Our products also meet RoHS standards when required. We maintain complete QA files in our manufacturing facility for IQC, IPQC through to Final QA, to ensure the ongoing quality of our products during their service life. Our factory QA group is prepared to offer standard testing data and special customer testing when required.

**FE Technology** stands by our commitment to provide the best products for your needs. We provide a 1 yr. warranty with all of our production products, standard or custom-built/designed. Our Customers can be assured that FET will keep your production cost down and your supply line running smoothly.
