

Best in class for OEM/ODM customer service & loyalty.

ANTENNA DEVICES

FE TECHNOLOGY, INC.

Your Manufacturing Source

www.fe-tech.com

- 30 years of experience in sourcing products for OEM customers
- Services range from conceptual design to finished product
- USA engineering for evaluating customer specifications
- Inspection of shipments to ensure specification compatibility
- JIT delivery from warehouses located in Ohio and California
- Quality supplier ready to offer full support to our customers

Custom Antenna Design

Design Evaluation, Custom Tooling, Quality Control, Testing

R&D support – Qualified and experienced R&D staff, High level equipment

Technical know-how – Plastic/Metal processing, Deep drawing, Precision turning

Production facilities – Injection, Mock up forming, Lathe & CNC, Coax stripping machines

Plastic and Metal fabrication, Assembly/wire cable twist, T&R forming machines

Production options – Fully automatic/semi-automatic/Manual assembly

Environmental and Mechanical testing – Climatic/Temperature/Salt spray/Durability/Force test

Electrical & RF Testing – Anechoic chamber, High Power/Isolation and contact resistance

Plating systems and Complex designs assembly

QUALITY: Our factory is ISO certified to ISO 9001.

Our products also meet RoHS standards when required.

We maintain complete QA files in our manufacturing facility for IQC, IPQC through to Final QA, to ensure the ongoing quality of our products during their service life.

Our factory QA group is prepared to offer standard testing data and special customer testing when required.

FE Technology stands by our commitment to provide the best products for your needs. We provide a 1 yr. warranty with all of our production products, standard or custom-built/designed. Our *Customers* can be assured that FET will keep your production cost down and your supply line running smoothly.
