- Services range from conceptual design to finished product.
- USA engineering for evaluating customer specifications.
- Inspect shipments to ensure Q/C and specification compatibility.
- JIT delivery from warehouses located in Ohio and California.
- Quality supplier ready to offer full support to our customers.

## Key-In Custom Keypads

FE Technology is an industry leader in the manufacturing, sales and distribution of custom Rubber and Membrane Keypads. We offer the cost advantage of Far East manufacturing in Taiwan, China, and Cambodia. All backed with a highly trained USA based engineering, sales and distribution team. Our Taiwan logistics team oversee all manufacturing and quality of daily productions.

**QUALITY:** Our factory is ISO certified to ISO 9001. Our products also meet RoHS standards when required. We maintain complete QA files in our manufacturing facility for IQC, IPQC through to final QA, to ensure the ongoing quality of our products during their service life. Our factory QA group is prepared to offer standard testing data and special customer testing as required.

FE Technology stands by our commitment to provide the best products for your needs. We provide a 1 yr. warranty with all of our production products, standard or custom-built/designed. Our Customers can be assured that we will keep your production cost down and your supply line running smoothly.

*FET Engineering can help you "Design It" and our factories will "Build It"*
